

Environmental Policy

lamdata Solutions Ltd Pty are committed to ensuring that all activities undertaken by us while conducting our work, is carried out with due regard for our planet and is conducive to promoting a healthy and sustainable environment.

lamdata Solutions addresses the key areas of the Environmental Policy by:

- Continually improve our resource efficiency.
- Minimise waste through promoting a 'paperless' office.
- Always choose ethical suppliers and use recycled and sustainable materials where possible.
- Ensure all IT equipment and software are managed to minimise the environmental impact, while meeting regulation requirements.
- To reduce the environmental impact of events we attend or organise, offering online solutions where possible to lower the carbon footprint of our business transport and travel.
